PROFESSIONAL PROFILE

Software Engineering student, software developer and UI/UX designer interested in developing practical digital systems that solve real-world problems. Gained practical experience through two industrial trainings: building Python/Django and PHP web applications at the University of Dodoma, and system analysis, requirements documentation, database design, Yii2 development and Figma-based UI/UX design at the University of Dar es Salaam Computing Centre. Particularly interested in digital transformation, institutional systems, FinTech, cybersecurity and technology entrepreneurship.

PROFESSIONAL EXPERIENCE

Software Development Intern / Field Training Student

2024/2025

University of Dar es Salaam Computing Centre (UCC) · Software Development

- Participated in software development activities in the Software Development department.
- Performed system analysis and participated in requirements analysis.
- Worked on database schema design.
- Designed user interfaces and user experience in Figma.
- Collaborated with the project team and supervisors.
- Worked on the PMP institutional system.
- Prepared requirements and system documentation.
- Contributed to development using the Yii2 framework.
- Gained experience with institutional information systems.

Field Supervisor: Dr. Ngeze · Project Supervisor: Mr. Mikidadi

Industrial Practical Training Student

2023/2024

University of Dodoma (UDOM)

- Developed a Land Price Prediction system using Python and Django.
- Developed a House Rent Management system using HTML, CSS, JavaScript and PHP.

PROJECTS

SupportDesk System

Institutional Service Management

A digital platform for complaints, enquiries, service requests, visitor management, staff assignment, escalation and reporting. **Skills:** Web Application, Database Design, Role-Based Access, Dashboards & Reporting, System Analysis.

Student Management System

University Information System

A university-focused system for managing student academic and administrative records. **Skills:** Web Application, Database Design, Authentication, Authorization, Role-Based Access.

PMP System

Institutional System · Field Training

An institutional system developed during software development field training at the University of Dar es Salaam Computing Centre. **My contributions:** Requirements analysis, System documentation, Database schema, System design, UI/UX design, Application development, Team collaboration.

Land Price Prediction System

Web Application · Industrial Training

A web application that predicts land prices, built with Python and Django. **Skills:** Python, Django.

House Rent Management System

Web Application · Industrial Training

A web-based system for managing house rentals, built with HTML, CSS, JavaScript and PHP. **Skills:** HTML, CSS, JavaScript, PHP.

EDUCATION

Bachelor of Science in Software Engineering

2023–2027

University of Dodoma (UDOM)

Relevant coursework: Advanced Java Programming, Object-Oriented Analysis and Design, Web Frameworks, Distributed Databases, Data Mining and Data Warehousing, Operating Systems, ICT Security, Secure Systems, Compiler Design, Database Systems, Software Engineering.

TECHNICAL SKILLS

Java Spring Boot Python Django JavaScript React PHP Yii2 HTML CSS MySQL SQL REST APIs Git GitHub Database Design System Analysis and Design UI/UX Design Figma Software Development

LEADERSHIP

Secretary of Education and Innovation

2026/2027

UDOSO CIVE — College of Informatics and Virtual Education, University of Dodoma

Academic communication · Student academic support · Education initiatives · Innovation initiatives · Student development · Technology initiatives · Communication between students and relevant stakeholders · Supporting practical training issues · Supporting academic information dissemination
